The news of the death of the Rt. Rev. Bishop Barry, the Diocean of Savannah, will cause a sigh of regret and mourning throughout the large congregations over which he was the chief shepherd, and to whose spiritual wants he so devotedly and usefully dedicated himself. Eishop Barry was born in Wexford, Irenard, in 1799, and received his education at St. Peter's Seminary, Wexford, where he distinguished himself by his classical and scientific acquirements. In 1823 he came to the city of Charleston, and ander Bishop England he completed his studies in theology, and received the impress of that eminent man's great mind. In 1825 he was ordained a priest in Charleston, and was shortly afterwards appointed a missionary to North Carolina. Upon his return from that State, he was stationed in Charleston, and aiterwards in Columbia. In the year 1831 he was appointed the pastor of the Holy Trinity church, in Augusta, 6a., where he remained in the acceptable performance of his duties, until Savannah was visited by yellow fever in 1854, when he went to Savannah. Upon the death of Bishop Gartland, he was appointed Administrator of that diocess, and was subsequently elected to the Bishop for Savannah, to which office he was consecrated at Baltimore, August 2, 1857. His health, declining under his devoted attention to his duties, he loft to seek its restoration in Europe, where the hopes of friends have been doomed to disappointment by the news of his death. His labors on earth are not finished, for the good seed that he has sown has yet to bear the fruits that are destined for eternity; but the records of his pure life are closed here, to be opened only at that bar where the rewards to the faithful will be bestowed. He leaves behind him a character to be imitated, and a tentimony that will endure forever.

The word "reverend" occurs only once in the Bible, which is in the 9th verse of the 11th Psalm. Many of the cherches in the United States, it is said, hill their clergymen, but the death is not all indicated in the same way. It is a slow, sweet, sure love which companies them in some delightful instances; it is a full indifference on this side; it is by an exacting, released uncessure.

There are in the United States forty-eight Catholic archibelops and bishops, two mitred abbots and two thousand two hundred and twenty-three secular and regular priests.

Rev. James D. Coulling, secretary of the Virginia Conference, sends the following statistical information to the editor of the Richmond Fairties Advocate.—We have this year 35,012 white members, 4,505 white probationers, and 216 local preachers within the bounds of the conference, making an aggregate of 43,462, an increase of 3,167 over last year's returns. While this is much less than it should be, we have cause for devout gratitude. About fifteen years ago I added up the statistics of our conference for he first time. We then reached, all told, little more than 24,000. We have more than doubled. The Sabbath school statistics are of interest. I think, if I can get the time, I will call attention to some particulars set forth in the statistics. The following are the figures:—We have 400 Sabbath schools, 3,890 oilloers and teachers, 18,458 scholars, 51,995 volumes in the libraries, 3,168 copies of the Visiter taken, \$3,696 66 have been collected in Sabbath schools for the missionary cause. The treasurer of the society reports the amount raised for missions in the conference at \$21,882 25—a decided advance on any previous year.

The Earl of Harrowby, the Right Hon. T. Sotheron Estcourt, M. P., the Bishop of London, Miss Burdett Courts, the Countess of Falmouth, and others, are soliditing aid towards the erection of a new church, to be dedicated to St. Andrew, for 3,000 poor and working people at Shepherd's Bush, England. It is intended in the first instance to erect a schoolhouse, in which special missionary services will be held, as being the best means of preparing the way of the church.

An important movement, having for its object the inellectual and spiritual improvement of the younger por-

the church.

An important movement, having for its object the intellectual and spiritual improvement of the younger portion of the inhabitants of London, was mangurated lately at Sion College, the headquarters of the clergy of the archdeaconry. By permission of the President and fellows, the spacious hall has been thrown open for a series of addresses, to be delivered every week by gentlemen distinguished in the church and state on subjects of general importance. Of these the Very Rev. the Dean of Westimgater kindly delivered the first, the subject being "Some-ffints in Reference to the Study of the Holy Scriptures." The dean treated the matter in a broad, comperhensive and philosophical spirit, addressing his audience simply as intelligent men of business.

IMPOSING CEREMONT—SIX YOUNG LADIES TAKING THE WHITE VEIL.

[From the Philadelphia Press, Dec. 10.]

In the Catholic church of Reading, on Thursday morning, was witnessed the most beautiful and impressive ceremony of the church, the taking of the white veil by a number of young ladies. An unusual one at all times, and particularly so in a town like Reading, it attracted to gether in the church of the Rev. Mr. Kunzer a very large number of persons from the county of Berks, and various other portions of the State. The church was so densely filled that it was even difficult to find standing room. The decorations of the church were very tasteful, and beautifully in keeping with the solemn ceremony that had called the audience together. The particular order to which these young fadics were to devote themselves for life, was that of the Sisters of Mary, one of the most extensive and influential in the church.

At a few minutes of eleven o'clock the young ladies about taking the veil entered the church. They were preceded by the Mother Superior of the Order, several other sisters of the black veil, and a number of children, about six years of age, dressed in white. The young addies were dressed in white satin dresses, with crowns of orange blossoms, and white lace veils suspended over the body, each one bearing a beautiful bouquet. The costume—a complete bridal dress—was very much admired, and set off the personal attractions of the young devotees most charmingly. They took seats within the chancel, and set off the personal attractions of the young devotees most charmingly. They took seats within the chancel, and immediately in front of the altar. Among the clergymen within the chancel were noticed the Very Rev. Dr. Neauman, Eshop of Pennsylvania, Rev. C. J. H. Curler, of the Church of the Assumption, Philadelphia; Rev. William O'Hara, of the Church of the Assumption, Philadelphia; Rev. William O'Hara, of the Church of the

The discourse was very brief, and was listened to with the closest attention by the large audience.

The sermon over, the ceremony of consecrating the same the same to be assumed by the postulants was performed by the Bishop. The six young lederal minutes in the merchy payer. On rising they proceed to read, in a clear and distinct voice, the formula adopted by their order on making application for the veil. The Bishop interrogated them as to their willingness to accept the position, and proceeded to clip a lock of hair from the forehead of each, which was thrown into a small basket carried by a little girl.

which was thrown into a small basket carried by a little girl.

This ceremony, which constituted the formal reception of the postulants into the order, was understood to typity their formal renunciation of the vanity of the world, and their willingness to enter into the probationary period. This being concluded, the young ladies retired to an ante room, accompanied by several of the order. An interval elapsed, which was occupied by the performance of a religious ceremony and a beautiful piece of music. The girs re entered in was occupied by the performance of a religious ceremony and a beautiful piece of music. The girls re entered in the costume of their order, consisting of a long blue habit, a white veil bound around the brows, and hanging over the shoulders a white cape of muslin, and slippers. The Bishop gave them individually his blessing, and placed on their heads the crowns of orange blossoms which had been removed in the former parts of the ceremony. The following are the names of the young ladies assuming the veil, together with those adopted by themselves in entering the order:—
Miss Robecca McElhone, of Philadelphia, assuming the name of Sister Mary Cecilia.
Miss Mary Reed, of Philadelphia, assuming the name of Sister Mary Benedicta.
Miss Mary Marron, of Philadelphia, assuming the name of Sister Mary Benedicta.
Miss Caroline Gilbert, of Philadelphia, assuming the name of Mary John.
Miss Catharine Moroncy, of Philadelphia, assuming the name of Mary Herrictta.
Miss Frances Grant, of York, Pa., assuming the name of Mary Herrictta.
At half past one o'clock, the ceremonies concluded, and the six young ladies that had entered the church, apparently so full of life and hope, arrayed in the richest of bridal costumes, now departed in the humble habit of their order.

The Commecticut River Closed.

[From the New Haven Journal, Dec. 12]
The steamer Granite State, Capt. King, left New York on Friday afternoon for Hartford, and proceeded as far as Middletown, where she encountered so much ice that it was deemed prudent not to go further, and atter landing her Middletown freight she came round to New Haven and landed her Hartford freight, which will be forwarded by the cars.

The Granite State met the City of Hartford off Saybrook, bound up the river; but that boat, after getting as far as Middletown, checountered the same difficulties as did her connort, and also put back and landed her freight at the steamboat dock in this city; so that navigation on the Connecticut river may be considered as suspended for the winter.

The Granite State left here at 11 o'clock Saturday night in place of the Elm City, the latter steamer remaining here until to-night.

The City of Hartford went down to New York yesterday, and will leave this afternoon on the Elm City time, and hereafter will alternate trips with the Elm City. The Granite State will be put into winter quarters and undergo repairs.

The Traveller came up on Sunday morning, and returned to New York yesterday, taking large freights each way. She will hereafter run as a freight boat, discontinuing her regular passenger trips.

The Champion will be run as an extra freight boat during the winter.

We understand that the freighting business is very heavy at the present time, and the prospect is that all the boat will have as much as they can do during the winter to accommodate the business effered.

man.—This is a motion to diamiss the summons and complaint herein, upon the ground that service thereof was made upon the defendant, who is an Israelite, on Friday evening, December 2, 1850.

Thomrow, J.—The Jewisn Sabbath, as is well known, commences with the setting of the sun upon the Christian Friday, and closes at sundown the following day. The religious coremonies of the sincere and conscientious Hereby and the lighting of candles (as well in his synagogue as at home) at the setting of the sun on Friday. The statifte, it seems (2R. S., 98), aims only at the protection of a class of persons whose religious faith and practice are to keep Saturday as a day set apart by Divine command for spiritual purposes. A day in contemplation of law comprises all the twenty-four hours, beginning and ending at twelve o'clock at night. (1 Bar., beginning and ending at twelve o'clock, Friday night, is not prohibited by statute. Much, therefore, as we regret that the religious exercises of the defendant were interrupted as the occasion referred to, yet it is not in the power of the Court to afford him the referes or relief he asks at our hands.

Brady; but as they are largely in the minority, they have partly concluded to endorse Ald. Peck. The Tammanyites favor Ald. Cornell (elect), at present President of the Board of councilmen. Among the Mozart candidates only two names are mentioned—Ald. Tuomey and Books. The former has served two years in the Board and is claimed to be the most efficient of the two. As the Board is pretty well divided, there will be some buying and selling before the programme is successfully made out. Whoever is elected, there will probably be no changes among the Glerks, or Sergant at-trms. In the Council Board, Van Tine, Buitsel and Shaw are named. The first named has served four terms, and is therefore the eldest member. His claims are strongly urand upon this ground. Shaw is one of the newly elected members, but is the opposition candidate. There is some talk of a change among the clerks.

make his début to-night before an American assemblage at the Academy of Music, for the benefit of the institution at the Academy of Music, for the benefit of the institution under the direction of the Sisters of Mercy. Subject—"The insufficiency of human reason to acquire Christian faith." European papers state that "his abilities as a lecturer are second to none in the civilized world; among his rare qualities is the faculty of making himself understood on the most difficult and abstruse points. This faculty has therefore acquired for him a popularity exceeding that of any living lecturer." Besides this fact, the object is one which deserves a free and liberal response from a Christian community.

The Grann Macone Reunion.—Expectation is on tiptoe in

all our fashionable circles, about the brilliant file to take place at the Academy of Music on the 20th inst., on the piace at the Academy of Music on the 20th inst., on the occasion of a grand reunion of the Ancient and Accepted Rite. The arrangements for the affair are of the most appropriate and extensive kind, with a view to give the affair a novel and unique character. The fraternity will appear in their full regalia from the first to the thirty-third degree—the latter the highest degree of the ancient masonic craft.

THE CITY HALL CUPOLA.—The work on the cupols on the TRE CITY HAIL CUTOLA.—The work on the cupols on the City Hall, after being about two-thirds finished, appears to have been brought to a stand still, according to all external appearances. The perforations for clock faces have been carefully boarded up with rough msterial, and the apex of the cupols is misus a suitable head. On the old structure the figure of "Justice" formerly held forth; but a few years prior to the conflagration which destroyed it, "Justice" got tired of holding her own balanced scales, and let one side overcome the other—this was suggestive of the manner in which business was done by our city legislators. It would be totally inappropriate to replace a figure of "Justice" on the City Hall, when the fact is patent that the incoming Common Council will comprise the most unprincipled gang of speculators ever fosted upon an intelligent community. Some other design, then, other than "Justice," more suggestive of the character of the Common Council, must be designed, and placed on the City Hall, January 1, 1860.

EXPERIMENTING ON THE RUSS PAVEMENT.-The Work of taking up the Russ pavement in Broadway, between Reade and Duane streets, and breaking the stone into sizes similar to the Belgian pavement, and then relaying sizes similar to the Belgian pavement, and then relaying them, turns out to be an expensive and annoying experiment. This was done by order of the Common Council; and, from what has been ascertained in the premises, it is but a preface to a "fat job" for all those engaged in it. If the Common Council push the work from the Battery to Fourteenth street, it will cost the city over half a millon of dollars. It would be much cheaper ta cart away the Russ blocks, and replace them with the Belgian pavement.

There is no active call or bear party at work; stocks are left to the natural fluctuations of the market, and, at this season, as usual, there very little outside business. The decline in Central brought in some orders, and sales were made this morning as high as 78% on time; the price afterwards declined to 78 a ½, and closed in the afternoon at 78% bid. There seems to be nothing to add to what we said yesterday in relation to the dividend matter. When the disappointment subsides the effect will probably be beneficial to the stock. Rock Island was active to-day at a moderate decline; it closed at 63% bid. Galena was steady. Yesterday's decline in Panama seems to have brought in some new buyers; the stock advanced ½ per cent, closing 134% bid. Pacific Mail was steady. Reading advanced ½ per cent on the strength of some new purchases. In the afternoon the market was a shade better, and stocks closed steady at the following quotations:—Missouri 6's, 83% a 84; Canton, 17 a ½; shade better, and stocks closed steady at the following quotations:—Missouri 6's, 83% a 84; Canton, 17 a ½; Cumbarland Coal preferred, 12% a 13½; Pacific Mail Steamship, 76% a %; New York Central, 75% a ½; Erie, 5% a ½; Hudson River, 42% a ½; Harlem, 9 a ½; do. preferred, 34% a ½; Reading, 44% a 42; Michigan Central, 25% a 35½; Michigan Southern and Northern Indiana, 6% a 7; do. guaranteed, 17% a 17%; Panama, 124% a 135; Illinois Central, 55% a 59%; Galena and Chicago, 66% a 67; Cleveland and Toledo, 15% a 15%; Chicago and Rock Island, 63% a 63%.

To pay the floating debt and the mortgage bonds, which were maturing annually, to the amount of about \$45,000, the company executed a mortgage on its property to the amount of \$600,000, payable in 1880, with a provision for a sinking fund sufficient to pay off the whole amount at maturity. The company have now on hand cash and these bonds at current prices, and have paid the maturing bonds and the floating debt out of the annual carnings, at the expense of depriving the stockholders of cash dividends.
